OAK BEYOND ITS OWN NATURE

Avantgarde was born from the idea that even the most established materials can be seen differently.

Avantgarde Collection

Avantgarde Solaire 8x48 NAT RECT

The starting point was classic oak — a hardwood deeply rooted in European and American architecture and interiors. Rather than simply reproducing its familiar grain in porcelain, the design process became an exploration of how technology could push the material beyond visual resemblance and into a more sensory territory.

The palette follows the same sensibility. Clair, Solaire and Brunet evoke different encounters between oak and light — from pale luminosity to warmth and deeper shadow.

Avantgarde ultimately explores the tension between the familiar and the unexpected: **taking something we think we know and allowing touch, light and technology to reveal another nature within it.**

PROUDLY MADE IN USA

Portobello America brings design, innovation, and advanced manufacturing technology to the North American market through a brand shaped for the way this industry designs, specifies, and builds.

Guided by global research and local insight, we transform architectural vision, aesthetic expectations, and technical demands into surfaces that raise the standard for performance, precision, and responsiveness.

Manufactured in the U.S. and backed by Green Squared certification , our products give distributor partners and design professionals the confidence to move from concept to jobsite with greater speed, consistency, and assurance.
