Aeterna X Bianco 48x106 NAT PEOT

A E T E R N A X

**A CONTEMPORARY
DIALOGUE IN TRAVERTINE**

In the evolution of Aeterna's story, a new perspective emerges. Building on the success of Aeterna, one of the strongest natural stone systems in our portfolio, **Aeterna X expands the language of travertine with a bolder, more contemporary interpretation designed to mix and match seamlessly with the original collection.**

Aeterna X Bianco 48x48 NAT RECT
Aeterna X Avorio 48x48 NAT RECT

If Aeterna celebrated the purity of travertine in its most traditional vein cut expression, Aeterna X introduces a dynamic **crosscut reading**. **Horizontal striations expand across the surface, breaking linearity and revealing the layered depth of the stone.** Where vein cut offers classical refinement, crosscut introduces rhythm, a broader, more architectural movement that enhances spatial continuity and brings a modern presence to commercial compositions.

The material shifts.
The surface expands.
The space feels in motion.

Aeterna X Taupe 24x48 NAT RECT
Aeterna X Taupe Inciso 24x48 NAT RECT

Aeterna X Bianco 48x106 NAT RECT

Designed to coexist with Aeterna, both collections share precisely calibrated tonalities and coordinated accessories. Vein cut and crosscut can be specified together without visual interruption, even within the same environment, balancing tradition, and contemporary expression through material harmony.

Available in Bianco, Avorio, and Taupe, Aeterna X is conceived as a cohesive system. Matte field tiles emulate honed natural stone, while delicately inciso wall reliefs reinterpret split travertine with refined dimensionality.

Aeterna X Avorio Inciso 24x48 NAT RECT

The **expanded mosaic program** introduces new shapes, including SQ, Clover, Beat, and Nova, **integrating pressed recycled glass powder and advanced digital printing technology to achieve seamless chromatic and textural compatibility across surfaces.**

Aeterna X Avorio 24x48 NAT RECT

Engineered for continuity from floor to wall, indoors and out, Aeterna X mosaics are suitable for wet areas, exterior applications, and even pools. It meets DCOF performance standards while preserving the authenticity of natural travertine, a familiar stone look re framed for contemporary design and elevated through system intelligence.

PROUDLY MADE IN USA

Portobello America brings design, innovation, and advanced manufacturing technology to the North American market through a brand shaped for the way this industry designs, specifies, and builds.

Guided by global research and local insight, we transform architectural vision, aesthetic expectations, and technical demands into surfaces that raise the standard for performance, precision, and responsiveness.

Manufactured in the U.S. and backed by Green Squared certification, our products give distributor partners and design professionals the confidence to move from concept to jobsite with greater speed, consistency, and assurance.
