color market

Glazed Ceramic

Every inspiration has a color and creating an inspiring pantone is the concept of Color Market. Color with essence, meaning, history and tailored for interior design. The classic English brick is the basis of color. Surface molded by hand that has been exposed to weather over the centuries undergoes a transformation through painting. Color Market's palette is the result of a collective process. Pantone, the world's leading color expert, guided the creation based on home & interior trends in a workshop held with architecture professionals and Portobello's design team. The result is thrilling.
