A P A L A C H E S

CARVED BY TIME.

REFINED BY DESIGN.

Apalaches is a **soft stone expression** grounded, architectural, and versatile built to move from floors to walls to decorative moments with the same calm confidence. It draws from an **American material** heritage and translates it through **Portobello America's design lens**, turning geology into a surface language that feels **extracted rather than printed.**

Apalaches Rocha 48x106 NAT RECT

Apalaches begins with a place you can almost hear, a mountain range where **stone carries memory in layers**. In the Appalachians, soapstone has long been shaped by hand, slow work, quiet work, where **the gesture matters as much as the material**.

This collection **performs a subtle transformation, it turns volume into plane, carving into surface.**

Apalaches Rocha 48x48 NAT RECT

The result is a **stratified language** where layers move through the piece like geology, wrapping the surface with depth and giving the material a **composed, architectural presence**. Porcelain becomes the enabler here, allowing that layered reading to remain **precise, repeatable, and specification ready** without losing the **emotional authenticity of stone**.

Available in **three balanced tones**, Apalaches expands flexibility across the stone category, giving designers room to compose **warmth, contrast, and continuity** without leaving the same material language.

PROUDLY MADE IN USA

Portobello America brings design, innovation, and advanced manufacturing technology to the North American market through a brand shaped for the way this industry designs, specifies, and builds.

Guided by global research and local insight, we transform architectural vision, aesthetic expectations, and technical demands into surfaces that raise the standard for performance, precision, and responsiveness.

Manufactured in the U.S. and backed by Green Squared certification, our products give distributor partners and design professionals the confidence to move from concept to jobsite with greater speed, consistency, and assurance.
