CARRARA ICON

THE LASTING
EXPRESSION OF **NATURE**

The enduring natural beauty of Carrara defined by **mineral depth, organic veining, and unmistakable elegance.**

Carrara Icon captures that essence and translates it into porcelain with purpose: to preserve what makes the original stone iconic, while refining it through **design intelligence and advanced surface engineering.**

This is where **control** becomes part of the beauty: the ability to capture Carrara's movement precisely and faithfully, keeping it consistent across formats, finishes, and applications. **Depth** is the result: **a layered, mineral reading built through multiple strata of veining, not a single flat print.**

While many contemporary Carrara looks simplify the marble into a bright white background with a few bold lines, Carrara Icon is built around realism. It preserves the full natural hierarchy of the stone, including sub veining and softer mineral shifts, **creating a white that feels architectural and alive, never sterile.**

Carrara Icon is conceived as a coordinated porcelain global collection for commercial and residential specification across markets, with products made in USA exclusive to north American market.

Soft is the collection's key USA factory innovation: **a satin, silky touch finish with controlled sheen that reframes polished into a more versatile, contemporary experience**, reducing glare while preserving usability, a polished with the light turned down.

Dimension becomes part of the story through **Quadri, a sculpted wall relief inspired by artisan stone machining**, introducing shadow as a design material and elevating vertical planes with rhythm and sensorial depth.

The mosaic program is where **Carrara Icon becomes unmistakably premium through two distinct expressions:** *MOS Reticolo*, produced with recycled glass powder and reprinted with the Carrara Icon design, **delivers precise tonal matching** and confident performance across dry and wet areas, interior and exterior applications.

Alongside it, curated natural Carrara mosaics such as *MOS BAR* and *MOS ARROW* bring a true value signature, **adding the tactile mutation and crafted variation that only real stone can offer.**
