S A B I

TIME, **WEAR, LIVED IN**

Sabi reflects the beauty of what evolves over time, not as imperfection, but as **depth, memory, and presence.**

It draws from the traces life leaves behind and transforms them into a **surface language** that feels warm and intimate. Its design process was deeply handmade and artisanal, beginning with **coffee stains created on watercolor** paper and observed over time as they evolved. What first appeared as marks gradually became memory. With the support of technology, those stains were carefully edited and refined, preserving only the **most beautiful traces.**

Sabi Bone 6x6 GLOSSY PRESSED
Sabi Bone Lines 6x6 GLOSSY PRESSED

What gives that atmosphere its **precision** is an **exceptional** level of technical control. A high-gloss surface at a 92-gloss level, a premium market standard, is paired with **a delicate**, controlled **micro-relief** created through a subtle grit effect. This balance of sheen and texture gives the collection unusual depth, allowing light and touch to reveal the surface in layers.

Sabi Indigo 2x10 GLOSSY PRESSED
Sabi Indigo Edge 2x10 GLOSSY PRESSED
Sabi Indigo Lines 2x10 GLOSSY PRESSED

As a **cross-collection connector**, Sabi brings a **wabi-sabi-inspired** sensibility into the portfolio through warmed neutral tones designed to mix and match effortlessly with the **2026 launches and beyond**.

Sabi Bone Edge Lines 6x6 GLOSSY PRESSED

In 6x6 and 2x10 formats, it is made for layering, detailing, and compositions that feel collected, resolved, and quietly emotional. The result is a collection where **industrial precision and human sensitivity** meet in a surface that expresses innovation, depth, and intention.

PROUDLY MADE IN USA

Portobello America brings design, innovation, and advanced manufacturing technology to the North American market through a brand shaped for the way this industry designs, specifies, and builds.

Guided by global research and local insight, we transform architectural vision, aesthetic expectations, and technical demands into surfaces that raise the standard for performance, precision, and responsiveness.

Manufactured in the U.S. and backed by Green Squared certification, our products give distributor partners and design professionals the confidence to move from concept to jobsite with greater speed, consistency, and assurance.
