

S A B I

Sabi reflects the beauty of what evolves over time, not as imperfection, but as depth, memory, and presence. It draws from the traces life leaves behind and transforms them into a surface language that feels warm and intimate. Its design process was deeply handmade and artisanal, beginning with coffee stains created on watercolor paper and observed over time as they evolved. What first appeared as marks gradually became memory. With the support of technology, those stains were carefully edited and refined, preserving only the most beautiful traces.
